■ Soft Knit

Upholstery Fabric
This card may show discontinued colorways.

FLINT 5501

■ Specification Information

Content 100% Polyester Weight 16 oz./sq. yard Size Sold in specific dimensions Repeat None Performance Abrasion Passes Abrasion Resistance ASTM D4157. 250,000 double rubs — wire screen. Abrasion resistance is the surface wear of a fabric caused by rubbing and contact with another fabric. Physical Properties Passes Brush Pill ASTM D3511, Class 4 minimum. Pilling is the formation of fuzzy balls of fiber on the surface of a fabric that remain attached to the fabric. Passes Breaking Strength ASTM D5034, 185 lbs. minimum in machine direction and cross direction. Breaking strength is the measurement of stress exerted to pull a fabric apart under tension. Passes Tear ASTM D2261. 30 lbs. minimum in machine direction and cross direction. Colorfastness to Wet and Dry Crocking Passes AATCC 8, Dry Crocking, Class 4 minimum, Wet Crocking, Class 3 minimum for staining, Class 4 minimum, Wet Crocking is the transfer of dye from the surface of a dyed or printed fabric onto another surface by rubbing. Crocking (AATCC 8) Class 4 min dry, Class 3 min wet Colorfastness to Light Passes AATCC16, Option 3, 40 hours. Colorfastness to light refers to a material's degree of resistance to the fading effect of light. Flame Resistance Passes California Technical Bulletin #117 Section E - Class 1. UFAC Class 1. NFPA 260 Class 1. Flame resistance is the measurement of a fabric's performance when it is exposed to specific sources of ignition. Cleaning Fabric may be cleaned with solvent-free upholstery cleaning product.	Description	Soft Knit
