# **Streamline Worksurface Frames**

Heavy-gage seam-welded powder-coat finished tubular steel. Horizontal tabletop support tube, 16-ga., 1" x 1" steel. Floor support member, 16-ga., 1-1/8' x 1-3/4' belly rectangular steel tube. Top floor support tubes are welded with 2 steel tube vertical leg members. The rear vertical support is 16-ga., 1" x 2" steel tube. The front vertical support is 16-ga., 1" x 2-1/8" bullet oval steel tube. Leg interior provides concealed management of wire from floor to worksurface. Adjustable chrome-plated glides. Powder-coat finish on legs. Casters offered as an option. There are three frame style options. The receptacle clearance beam option (WB) is a 16-ga., 1/2" x 1-1/2" steel tube cross brace, welded to two 14-ga.,L-brackets for support. The modesty panel (WM) is 19-ga. steel. It is located 1-1/2" from the rear of the worksurface. The modesty panel is 15.31" on the 29" tables. The full height modesty panel (WF) is 19-g steel. It is located 1-1/2" from the rear of the worksurface. The full modesty panel spans the space between the underside of the worksurface and the floor. It is only available on 29" height desks.

# **Worksurface Top**

1-1/4" thick top, .030" high-pressure plastic laminate top surface with .028" phenolic backing sheet. Available with flat-vinyl T-edge, 74P edge or 180° post-formed and elliptical post-formed front edge with .042" high pressure laminate and .045 phenolic backing sheet. Side and rear edges of post-formed tops are finished with either .024" PVC or .053" high-pressure laminate.

# **Surface Splice Plates**

Die-formed steel splice plates attach to underside of units with screws. Two splice plates are provided with all surfaces. Standard connector plate provided when surfaces are of common height. Worksurface height change connector provided for connecting 29" to 27" surfaces on transitional height worksurfaces. Specify worksurface height change connector for connecting non-transitional worksurfaces of two different heights.

# **Adjustable Keyboard Pad Worksurface**

Die-formed L-brackets attach to table and keyboard pad with screws. Threaded hand knobs lock keyboard pad in position. Available with flat vinyl T-edge and 74P edge.

# **Weight Capacity**

All FlexStation® tables meet or exceed BIFMA 5.5 Standards.

# **Horizontal Wire Management Trough**

Horizontal wire management trough (WW) is located behind the modesty panel and is constructed of rigid PVC with 1" deep by 1-1/2" high openings for cables.

### **Base Options**

There are two options for the base, standard chrome-plated adjustable glides (NC) or four swivel casters (WC). The caster option comes with two casters with locks and it raises worksurface height 3".

# **Guest Modesty Panel**

The Guest Modesty Panel for P shaped Piano, and Square Shoe, peninsula worksurface is constructed of 19-ga. steel. It is located 4.5" from the guest side of the peninsula worksurface and is attached using 6, #10-1" screws. It is 9" high and comes in lengths to fit 60" through 84" peninsula top.

# PREMIUM LAMINATES (UPCHARGE APPLIES TO ALL SURFACE TEXTURES)

SOLIDS WOODGRAIN LAMINATES METALLICS

Select Laminate Surface Textures (excluding for MARKERBOARD WHITE)

### LAMINATE SURFACE TEXTURES

#### #01 HIGH GLOSS - PREMIUM

A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light-to medium commercial applications. Excellent for vertical application.

#### **#18 LINEARITY - PREMIUM**

A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains, and linear patterns and provides dimension and visual movement to solid colors. Recommended for horizontal and vertical application.

#### #28 GLOSS LINE - PREMIUM

A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas. Recommended for horizontal and vertical application.

### #55 GLAZE - HD PREMIUM

A layering of matte features over a glaze of semi-gloss, creates this timeworn effect. Recommended for horizontal and vertical application.

### #07 TEXTURED GLOSS - PREMIUM

A textured finish which reproduces the high sheen of waxed wood furniture. Recommended for horizontal and vertical application.

#### #19 LENO WEAVE\* - PREMIUM

NEW Random intersecting horizontal and vertical lines create a geometric weave with a matte-gloss mix. Recommended for horizontal and vertical application.

#### #35 MIRAGE - HD PREMIUM

Subtle variations in matte and gloss finish connect to nature's own finishes: rough and weathered, smooth and polished. Recommended for horizontal and vertical application.

#### #57 ALIGNED OAK\* - HD PREMIUM

NEW Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of real wood. Recommended for horizontal and vertical application.

### #12 SOFTGRAIN - PREMIUM

AEON

A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. Recommended for horizontal and vertical application.

#### #21 SOFT SILK\* - PREMIUM

NEW A smooth, ultra-matte texture that leaves a soft-to-the-touch sensation coupled with a low sheen. Recommended for horizontal and vertical application.

# #38 FINE VELVET TEXTURE - STANDARD

A smooth textured finish with moderate reflective value. Recommended for horizontal and vertical application.

#60 MATTE - STANDARD

Textured finish with a moderate reflective quality. Recommended for horizontal and vertical application.

#### #16 CASUAL RUSTIC - PREMIUM

A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights. Recommended for horizontal and vertical application.

### #22 ANTIQUE - PREMIUM

A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal. Recommended for horizontal and vertical application.

### #52 QUARRY - PREMIUM

Premium finish emulating the "pitted" look of polished natural stone. Recommended for horizontal and vertical application.

#### #78 FINEGRAIN - PREMIUM

This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical application.

Finish features AEON™ Enhanced Performance Technology, providing 3x industry standard wear resistance, improved scratch, scuff and mar performance, versus comparable competitive finishes.

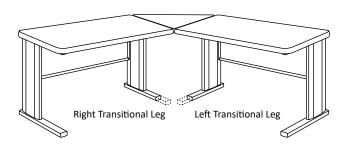

ANTIMICROBIAL PROTECTION is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface from the growth of mold and mildew that cause odors when used for countertops and work surfaces.

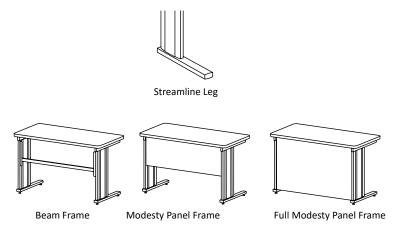

Features	Basic Worksurface (WBW)	Adj. Keyboard Pad Worksurfaces (WAK)	Transitional Worksurfaces (WCT)
Solid core top	•	•	•
Plastic Laminate Surface	•	•	•
Flat vinyl T-edge	•	•	•
Post-formed edge	•	•	•
74P edge	•	•	•
Elliptical post-formed edge	•	•	•
Powder coated legs	•	•	•

Chrome plated guides	•	•	•

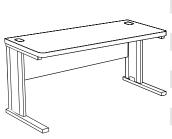

Transitional Leg
Transitional leg bases are 6 inches shorter than standard leg bases for greater leg room and chair
clearance when two surfaces are joined. When sealed at the worksurfaces, "right" or "left" refers to the
individual worksurface, not the assembled workstation. Cannot be ordered for an individual free-standing
worksurface.

# **HOW TO ORDER**

Indicate the following information on the order form:

- 1. Quantity of each item.
- Model Number, including options.
   (See "How to Build a Model Number.")
- 3. Any special service required.

#### Note:

The  $\square$  indicates that a choice is required.

The absence of □ indicates that no choice is required Alpha-Numeric characters in place of □ indicates that no other alternatives are available.

### **HOW TO BUILD A MODEL NUMBER**

Select Basic Model

2 Select Edge Style

**BN** - Flat vinyl T-edge **74P** - 74P edge

**3** Select Transition Direction

**L** - Left

R - Right

Transition direction is determined from the originating 24" or 30" basic or keyboard pad worksurface. When ordering an End-of-Run worksurface, the adjoining worksurface must have a transitional leg. Order a right (R) or left (L) transitional.

4 Select Transition Height

**7** - 27" high

**9** - 29" high

**5** Select Horizontal Wireway

NW - No horizontal wireway

WW - Wireway Add \$25

6 Select Frame Style

WB - w/Beam WM - w/Modesty panel

WF - w/Full modesty panel (available on 29" high only) Add \$40

**7** Select Worksurface Grommet Option

OGN - No worksurface grommet
OGY - Yes worksurface grommet
Grommets are required for overhead cabinet.

Grommets can be used for wire pass-through.

8 Select Paint Color

Refer to Finish Options.

Select Insert Color

Refer to <u>Finish Options</u>. Insert color also includes horizontal wireway (WW) if selected.

**10** Select Laminate Surface Refer to Finish Options.

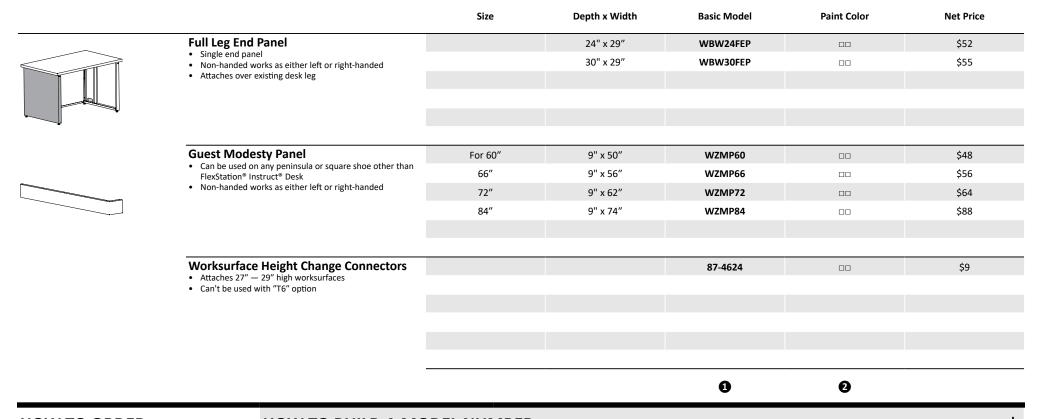

Select Edge Color

Refer to Finish Options. Edge color offerings are based on edge style selections.

2 Select Grommet Color Refer to Finish Options.

### **HOW TO ORDER**

OW TO ORDER

Indicate the following information on the order form:

1. Quantity of each item.

2. Model Number, including options.

(See "How to Build a Model Number.")

3. Any special service required.

### Note:

The  $\square$  indicates that a choice is required.

The absence of □ indicates that no choice is required Alpha-Numeric characters in place of □ indicates that no other alternatives are available.

### **SPECIFICATIONS**

### **Universal Overhead Cabinets**

Overhead storage shall consist of overhead cabinet(s) and shelves. Overhead storage shall attach to worksurface with two overhead support stanchions for 30", 36", 42", 48", 54" and 60" sizes. Three overhead support stanchions for 66" and 72" sizes. 66" overheads shall consist of a 30" and 36" overhead combination. 72" overheads shall consist of a pair of 36" overheads.

Shelf dividers shall be powder-coated steel with installation and removal accomplished without the use of tools or fasteners.

Universal overheads and shelves shall be 17" high and shall have 19-1/2" clearance between the worksurface and the bottom of shelf. Overhead doors shall be available with painted steel, fabric, laminate, or veneer, with a PVC extrusion handle. Locks shall be randomly assigned or keyed per customer requests. The end panels shall be constructed of 14-gauge steel and have self-locking mounting tabs formed into the back edge. The shelf, back, and top shall be constructed from 18-gauge steel.

### Venus® Overhead Cabinets

Overhead storage shall consist of overhead cabinet. Overhead storage shall attach to worksurface with two overhead support stanchions for 30", 36", 42", 48", 54", 60", 66" and 72" sizes.

Shelf dividers shall be powder-coated steel with installation and removal accomplished without the use of tools or fasteners.

Balance® overheads shall be 17" high and have 19-1/2" clearance between the worksurface and the bottom of shelf. The upper door shall be available in colored or translucent extruded rigid PVC with spatter-coat finish fabric, or laminate applied. The overall door thickness shall be 3/8". The lower door shall be an aluminum extrusion and be ergonomic in design. A center lock mechanism shall be utilized between the upper and the lower doors for security. The overhead doors shall be effortlessly operated from either a seated or standing position through use of the upper or lower door. The upper door and lower door shall be synchronized in motion through the use of two 10-gauge linkages. The doors shall be assisted with two extension springs and require less than 5 pounds of force to operate. The upper door shall open over the outside of the case.

### **Privacy Screens (WZP)**

Two or three 1/8" cold rolled steel brackets, sandwiched between two 1/2" Korlite boards joined together with industrial adhesive. The screens attach to the back of the worksurface with fasteners. Steel splice plates are used to align adjoining screens. Privacy screen is 19-1/2" high above the worksurface.

### **Privacy Screens (WZPE)**

WZPE privacy screens are constructed the same as the WZP screens. The WZPE are mounted to the end of the worksurface and perpendicular to the overheads. These screens are 1" shorter to accommodate the opening of the overhead door.

### **Key Options**

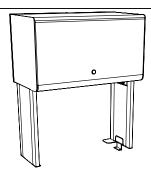

There are various key options available depending on the component model. The key alike option (KA) allows multiple components of a workstation to be keyed alike. The lock number can be specified The key standard option (KS) allows each component to have its own randomly selected key number shipped with the individual component. The no lock core option (NLC) provides more flexibility in keying workstations alike. All locks and keys

for the individual components specified with no lock core will be packaged separately from the components. The location of the lock core and corresponding numbered key will be determined upon installation.

#### Fabric

Fabric will be applied as swatched by the fabric manufacturer. Fabric that is required to be applied differently than is swatched will need a Special Cost Request written specifying the direction the fabric is to be applied. The posted standard lead time will apply to the Special Cost Request.

# Universal Overhead Cabinet with Steel Door

- The Universal Overhead allows users the option to interchange from a FlexStation desk mount solution to an office panel system
- Steel end panels, bottom, top shelf, and door with powder-coated finish
- Single bit lock is included with key alike option
- Door stores recessed with handle exposed
- Shelf depth is 13-1/4"
- 66" overhead has one 30" door and one 36" door with a support offset 6" from the center of the worksurface
- 72" overhead has 36" doors and middle support upright
- For use with fixed height worksurfaces
- Concealed vertical wire management
- Secured to steel legs by concealed mounting brackets
- Accepts Shelf Divider (NSD)
   Available in Accessories Price List
- Cannot be mounted on tables with casters or stand-up units
- 66" and 72" wide overhead are not available on FlexStation frames with beams
- End bracket design prevents accidental dislodging of components
