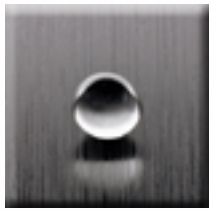
Select Laminate Surface Textures (excluding for MARKERBOARD WHITE)

LAMINATE SURFACE TEXTURES

#01 HIGH GLOSS - PREMIUM
AEON™
A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light-to medium commercial applications. Excellent for vertical application.



#18 LINEARITY - PREMIUM
AEON™
A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains, and linear patterns and provides dimension and visual movement to solid colors. Recommended for horizontal and vertical application.

#35 MIRAGE - HD PREMIUM
AEON™ Shield
Subtle variations in matte and gloss finish connect to nature's own finishes: rough and weathered, smooth and polished. Recommended for horizontal and vertical application.

#57 ALIGNED OAK* - HD PREMIUM
AEON™ Shield
NEW Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of real wood. Recommended for horizontal and vertical application.

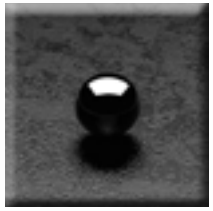
#07 TEXTURED GLOSS - PREMIUM
AEON™
A textured finish which reproduces the high sheen of waxed wood furniture. Recommended for horizontal and vertical application.

#19 LENO WEAVE* - PREMIUM
AEON™
NEW Random intersecting horizontal and vertical lines create a geometric weave with a matte-gloss mix. Recommended for horizontal and vertical application.

#38 FINE VELVET TEXTURE - STANDARD
A smooth textured finish with moderate reflective value. Recommended for horizontal and vertical application.

#60 MATTE - STANDARD
Textured finish with a moderate reflective quality. Recommended for horizontal and vertical application.

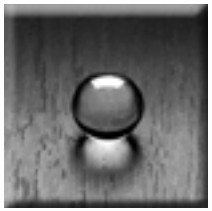
#12 SOFTGRAIN - PREMIUM
AEON™
A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. Recommended for horizontal and vertical application.



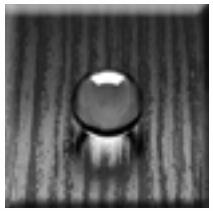
#22 ANTIQUE - PREMIUM
AEON™
A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal. Recommended for horizontal and vertical application.

#52 QUARRY - PREMIUM
AEON™
Premium finish emulating the "pitted" look of polished natural stone. Recommended for horizontal and vertical application.

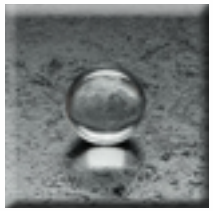
#78 FINEGRAIN - PREMIUM
AEON™
This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical application.



#16 CASUAL RUSTIC - PREMIUM
AEON™
A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights. Recommended for horizontal and vertical application.



#28 GLOSS LINE - PREMIUM
AEON™
A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas. Recommended for horizontal and vertical application.



#55 GLAZE - HD PREMIUM
AEON™ Shield
A layering of matte features over a glaze of semi-gloss, creates this timeworn effect. Recommended for horizontal and vertical application.

* Not available in Textured Solids

AEON™ Finish features AEON™ Enhanced Performance Technology, providing 3x industry standard wear resistance, improved scratch, scuff and mar performance, versus comparable competitive finishes.

Shield ANTIMICROBIAL PROTECTION is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface from the growth of mold and mildew that cause odors when used for countertops and work surfaces.

Actual Samples and Replacement Cards

Contact your Sales or Customer Service Representative.

- Not all colors are available on all products.
- There will be slight variations in color, texture and finish.
- Swatches are provided as a preliminary color reference and should not be used for a final color selection.
- Please refer to the Color Addendum for product line details and options.

A SERIES FIXED TABLE SPECIFICATIONS

This system employs heavy gauge columns screwed to either formed steel or cast aluminum bases in fixed models. Fixed columns are bolted onto stamped steel spider plates.

AH3 Models: The tapered round pedestal base is 0.07" thick steel. Tapered base is 22" diameter for all round table units and for all 24" and 30" square table units. Tapered base is 26" diameter for all 42" round table units. 3" diameter column is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws.

AH4 Models: The flat round pedestal base is a .07" thick steel cover over a 1/4" thick steel plate. Base is 20" diameter for all 24" and 30" round table units and for all 24" square table units. Base is 24" diameter for all 36" round table units, for 42" round table units at 29" OTH, and for all 30" square table units. Base is 32" diameter for 42" round table units at 42" OTH, and for all 36" and 42" square table units. 4" diameter column is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws.

AH5 Models: The flat round pedestal base is a .07" thick steel cover over a 1/4" thick steel plate. Base is 32" diameter for all round and square table units. 5" diameter column is constructed of 14-gauge steel and is used for all 48" and 54" round table units and all square table units. 6" diameter column is used on 60" round table units and is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Powder-Coated Finish: Powder coating is electrostatically applied.
Finish is chemical-resistant, hard, tough and mar-resistant.

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

OTH: Overall Table Height

			C-TABLE

C-SERIES FIXED TABLE SPECIFICATIONS

Tabletop

Tabletops are18” diameter and consist of 3/4” thick high-density 45 lb particleboard core with a .03” thick high-pressure laminate top and a .028” thick phenolic backer (bottom). The table edge is 2 mm polypropylene (73P) and is available in a variety of colors. See KI Color Addendum for laminate and edge finish options.

Base Frame

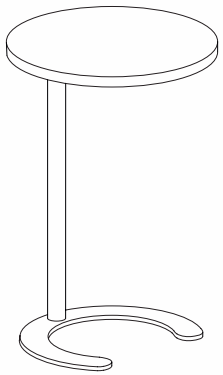
The table base frame is constructed of welded steel. The spider plate is 14-gauge, base is 3/8” thick and the vertical post is 11/2” diameter by .083” thick wall. The base frame is finished in electrostatically applied hybrid powdercoating. The coating is then fused and cured in a baking oven to form a smooth, continuous finish that is chemical-resistant, hard, tough and mar-resistant. Powder-coated paint is available in all standard KI paint colors except for chrome. See KI Color Addendum for complete options.

Glides

Six 1” diameter self-adhesive white polyurethane glides are recessed into machined pockets within the steel base.

Table Assembly

Tabletops are attached to the base frame using seven #12 x 3/4” Phillips truss head screws. Tables are shipped completely assembled with a packaged weight of 23 lbs. Assembled tables without packaging weigh 171/2” lbs.



C-TABLE PERSONAL WORKSURFACE

- C-Table features single column base
- 18" diameter round worksurface
- Fixed height only
- Recommended for use with soft seating elements. 27" height allows for this product to be stored under standard 29" work surfaces
- Ships fully assembled

E SERIES FIXED TABLE SPECIFICATIONS

E Base Tables include X, LX, T, and TT leg combinations that employs 14-gauge tubular steel components. Fixed table column is welded to an 8" x 8" formed steel plate. Feet, legs and plugs are built of 1-3/4" round tubular steel and have a highly polished finish. LX series is furnished with 3" o.d. seamless tubular steel column. Adjustable glides are secured to the legs. All ends capped with finished steel plugs brazed in place and are ground and polished smooth.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

FIXED

L SERIES FIXED TABLE SPECIFICATIONS

The table consists of two T-bases (centered column on a horizontal foot) supporting a worksurface. The top of the worksurface shall be 29" from the floor.

Base: The base shall consist of a top plate, column and foot all finished with baked-on 30 sheen powder coat paint. The top plate shall be 6-gauge thick steel. The column shall be 2-3/8" x 4-3/8" rectangular 14-gauge steel tubing with a 1/4" steel plate welded on the bottom and top end. The top plate shall be attached to the column with (4) 6mm bolts. The foot shall consist of an extruded aluminum component with a nylon toe cap inserted into each end. The foot shall be attached to the column with (4) 6mm bolts. Two 1-1/2" diameter nylon base leveling glides shall be threaded into the foot.

Worksurface Support: The worksurface support shall be 1" x 1" 14-gauge steel tubing attached to each leg column with 6mm bolts. An 11-gauge u-shaped cross member connects each leg assembly for stability.

Develop L Base Casters: Available as add-on options for all models, black only. Caster kits consist of 2-locking and 2-non-locking casters and 16 torx head self tapping screws. Caster kit will add 1" of height. See Assorted Accessories for Caster Kit

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant. Black, Silver, and White.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

P SERIES FIXED TABLE SPECIFICATIONS

P Base tables employ 14-gauge, 1-3/4" round steel upright columns and 16-gauge, 1-3/4" x 7/8" elliptical steel foot tubes in fixed, folding or flip-top models. Develop P Bases includes T, TT and LX combinations. LX bases consist of 14-gauge, 3" round steel upright columns and 16-gauge, 1-3/4" x 7/8" elliptical steel foot tubes. Fixed table columns are welded to an 8" x 8" formed steel plate. Plastic end caps are secured via a "force fit." The column cap is secured via a #8 x 3/4" tap screw. Adjustable glides are secured to the foot tubes by threaded inserts. Self-leveling glides are available by Custom Option Request only.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

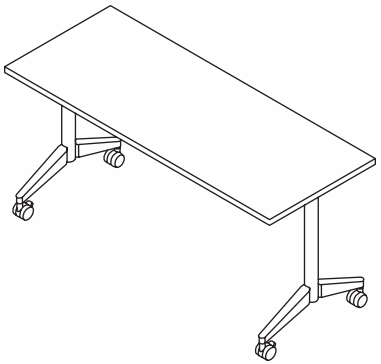
		DRIFT-Trapezoid	DRIFXR-Round	DRIFR-Rectangular

R Series Fixed Table Specifications

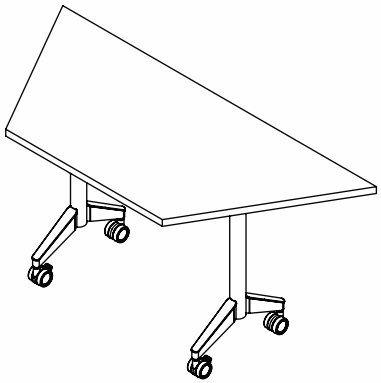
This system is a comprehensive table line that offers a variety of worksurface shapes and base styles that help create cohesive and adaptive spaces.

Leg Assemblies: Comes in T-Base (Rectangular & Trapazoid & Round). Leg height is fixed to provide 29” high tabletop height. Leg construction consists of 2.2” diameter, .10" thick wall steel tubing with a 5 mm thick steel plate welded to it. The feet consist of two 4 mm thick blades welded to the leg tube.
Laminate Table Surfaces: Laminate tops feature a 1-1/8” thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4”.
Casters and Glides: Casters are made of molded nylon and are two-tone Starlight Silver and black. Caster wheels are a minimum of 2.44” (62 mm) diameter. Caster wheel treads are medium hard (75 max Shore A). Glides are made of molded nylon and are two-tone black and white. Glides have 1” of telescoping height.
Edge Color Options: See Molded Edge Colors at Beginning of Price List
Base Finish Options: See Base Colors at Beginning of Price List
Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.
Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.



Rectangular Table, T-Base, Fixed Top at 29" high

- Training tables are designed for max leg spacing for the length of the table
- Chrome bases will have polished aluminum foot covers
- Gangers ordered separately



Trapezoid Table, T-Base, Fixed Top at 29" high

- Chrome bases will have polished aluminum foot covers
- Gangers ordered separately

	WUC 120° CORNER TABLE	WUFX FIXED TABLE

W SERIES FIXED TABLE SPECIFICATIONS

The table shall consist of two T legs supporting a worksurface. The top of the worksurface shall be 29" from the floor. NOTE: 66" and 72" fixed worksurfaces shall have a worksurface stiffener support. The column shall be 2-3/4" square 14-gauge steel tubing with 1/4" steel plates welded on each end. The foot shall consist of two formed and welded 11-gauge steel components. The top plate and foot shall be attached to the column with 8mm bolts. Two 1-1/2" diameter nylon base leveling glides shall be threaded into the foot.

Worksurface Support: The worksurface support shall be formed 11-gauge steel support members with 1/4" steel attachment plates. The worksurface support shall be attached to the column with 8mm bolts.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

E SERIES FOLDING TABLE SPECIFICATIONS

E Folding Tables include T, and TT leg combinations that employs 14-gauge tubular steel components. Feet, legs and plugs are built of 1-3/4" round tubular steel and have a highly polished finish. All ends capped with finished steel plugs brazed in place and are ground and polished smooth.

Folding Table Mechanism: Built of 11-gauge, black zinc finish steel, the folding mechanism easily releases and folds leg tightly to table bottom and securely locks with two polypropylene clips. When opened, legs engage into place for a tight, rigid fit.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

P SERIES FOLDING TABLE SPECIFICATIONS

P Base tables employ 14-gauge, 1-3/4" round steel upright columns and 16-gauge, 1-3/4" x 7/8" elliptical steel foot tubes in fixed, folding or flip-top models. Develop P Bases includes T and TT combinations. Fixed table columns are welded to an 8" x 8" formed steel plate. Plastic end caps are secured via a "force fit." The column cap is secured via a #8 x 3/4" tap screw. Adjustable glides are secured to the foot tubes by threaded inserts. Self-leveling glides are available by Custom Option Request only.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

T SERIES FOLDING TABLE SPECIFICATIONS

This system employs heavy gauge tubular steel components in a folding model, with TT configuration. Fixed table column welded to 1/4" solid steel plate.

Base: Built of 2-1/4", 14-gauge round tubular steel leg column with steel end cap and 16-gauge steel tapered legs elliptically swagged down to 1" diameter at end; highly durable, smooth powder-coated finish. Adjustable glides or casters are secured to the legs. Two casters in each set shall have wheel brakes (locking).

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

T SERIES FLIP-TOP TABLE SPECIFICATIONS

This system employs heavy gauge tubular steel components in a folding model with TT configuration. Fixed table column welded to 1/4" solid steel plate.

Flip-Top Mechanism: Standard flip-top table does not have a detachable top. Will ship standard with the Connecting Bar, (allowing for one hand flipping).

Base: Built of 2-1/4", 14-gauge round tubular steel leg column with steel end cap and 16-gauge steel tapered legs elliptically swagged down to 1" diameter at end; highly durable, smooth powder-coated finish. Adjustable glides or casters are secured to the legs. Two casters in each set shall have wheel brakes (locking).

Folding Modesty Panel Brackets: Mounting brackets are black and allow modesty panel to be folded underneath worksurface. Lower edge of panel extends 8-1/4" from underside of table.

Quick-Release Modesty Panel Brackets: Mounting brackets are black and allow the panel to be easily removed from the table without tools. The brackets are removed by pulling down on vinyl-coated spring steel release levers. Lower edge of panel extends 7-1/4" from underside of table.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

	TAY-TSON	TAY-TSOG	TAY-TSOE

TAYCO ONE-TOUCH SERIES FLIP-TOP/NESTING TABLE SPECIFICATIONS

This system easily collapses by pressing the button on either side of the table base. Once in the collapsed position, tables can be nested together when not in use.

Flip-Top Mechanism: Standard flip-top table does not have a detachable top.
Casters: Comes with locking casters as standard.
Modesty Panel: A 4" wooden modesty panel matching the table's surface finish comes standard and offers visual privacy that promotes the overall aesthetic of the table, while discreetly concealing, routing and storing wires and cables. An optional metal embossed modesty panel is 14" high and comes in charcoal only.
Edge Color Options: See Molded Edge Colors at Beginning of Price List
Base Finishes: Available in silver.
Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

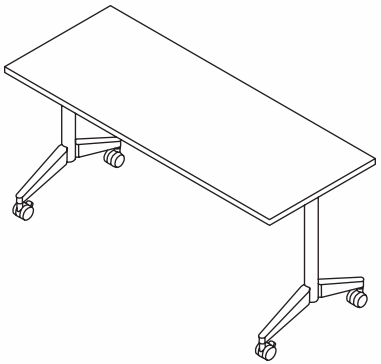
		DRINT-Trapezoid	DRINRD-Round	DRINR-Rectangular

R Series Flip-Top Table Specifications

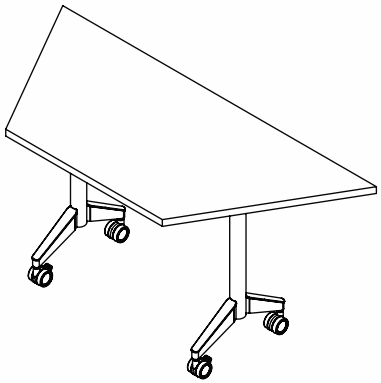
This system is a comprehensive table line that offers a variety of worksurface shapes and base styles that help create cohesive and adaptive spaces.

Flip-Top mechanism: A 9.9 mm steel hex rod connects the latch mechanism and is connected to a nylon release paddle on either end of the table base. The table latch release handle is actuated by squeezing the paddle on either end to the underside of the tabletop. Pulling upward raises the tabletop for nesting storage.
Leg Assemblies: Comes in T-Base (Rectangular & Trapazoid & Round). Leg height is fixed to provide 29” high tabletop height. Leg construction consists of 2.2” diameter, .10" thick wall steel tubing with a 5 mm thick steel plate welded to it. The feet consist of two 4 mm thick blades welded to the leg tube.
Laminate Table Surfaces: Laminate tops feature a 1-1/8” thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4”.
Casters and Glides: Casters are made of molded nylon and are two-tone Starlight Silver and black. Caster wheels are a minimum of 2.44” (62 mm) diameter. Caster wheel treads are medium hard (75 max Shore A). Glides are made of molded nylon and are two-tone black and white. Glides have 1” of telescoping height.
Edge Color Options: See Molded Edge Colors at Beginning of Price List
Base Finish Options: See Base Colors at Beginning of Price List
Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.
Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.



Rectangular Table, T-Base, Nesting Top at 29" high

- Training tables are designed for max leg spacing for the length of the table
- Chrome bases will have polished aluminum foot covers
- Gangers ordered separately



Trapezoid Table, T-Base, Nesting Top at 29" high

- Chrome bases will have polished aluminum foot covers

AH3R

A SERIES ADJUSTABLE HEIGHT TABLE SPECIFICATIONS

This system employs heavy gauge columns screwed to either formed steel or cast aluminum bases. Adjustable height with pheumatic cylinder column. Height range from 27" — 44-3/4".

AH3 Model: The tapered round pedestal base is 0.07" thick steel. Tapered base is 23" diameter table. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: Comes in Black or Chrome.

Powder-Coated Finish: Powder coating is electrostatically applied. Finish is chemical-resistant, hard, tough and mar-resistant.

Bright Chrome Finish: Surfaces are duplex nickel-chrome plated in a twenty-two step process.

Laminate Table Surfaces: Laminate tops feature a 1-1/8" thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is 1-1/4".

	Triumph

TRIUMPH SERIES ADJUSTABLE HEIGHT TABLE SPECIFICATIONS

Quick assembly: Frame and column connect and lock for quick and efficient assembly requiring minimal tools.

Gyro sensor anti-collision: The sensor provides superior safety and customizable sensitivity settings.

Two motors: Includes two motors allowing smooth height adjustment while supporting a broad range of worksurface weights.

Cross channels: With adjustable cross channels, the table base can adapt over time with the changing technology and work gear needs of the user.

Quality materials: Steel frame and foot construction offers outstanding stability.

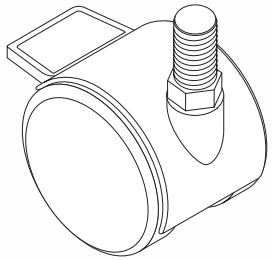
Quality testing: Meets or exceeds BIFMA x5.5 guidelines.
Edge Color Options: See Molded Edge Colors at Beginning of Price List

Available base finishes
Silver -SLV
Black -BLK
White -WHT

Caster kit: Set of four casters for table base. Increases height by 2.0". Locking casters for security

TRIUMPH LX

- Electric height adjustment
- 220 lb. base lifting capacity
- 1.4" / sec. adjustment speed
- 17.0" height adjustment range 26.5"–43.5" (low/high) (excluding worksurface)
- Two stage adjustable legs
- C-Leg
- Frame and column connect and lock for quick and easy assembly
- Adjustable width frame accommodates worksurfaces 36.0"–72.0"
- Digital keypad with three memory settings
- Soft start and stop
- Gyro sensor anti-collision
- Table base is UL962 listed
- Locking casters available
- Warranty: 15 yr. (structural)/7 yr. (mechanical)
- Tabletop Undersized 1/2" on Length & Width



LOCKING CASTER KIT [For "Triumph" Series Tables]

- Set Of Four Locking Casters For Triumph Table Bases.
- Increases Height By 2 Inches.

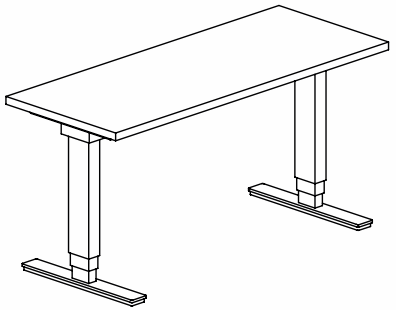
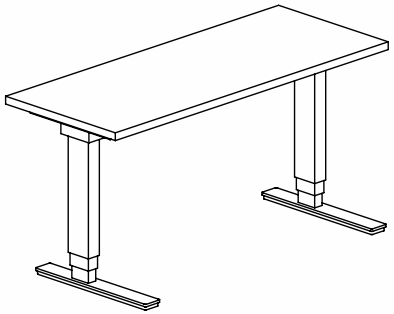
ELECTRIC 120° CORNER “C” LEG



ELECTRIC “T” LEG



ELECTRIC “C” LEG

L SERIES ADJUSTABLE TABLES SPECIFICATIONS

The table consists of two T-bases (centered column on a horizontal foot) supporting a worksurface. The top of the worksurface shall be 29” from the floor. The 90° corner table consists of three C-bases supporting a worksurface.

Dual Motor Electric Base: The table consists of two adjustable height T-bases (centered on a horizontal foot) or C-bases (cantilevered forward on a horizontal foot) attached to a worksurface support that spans the two bases and supports a worksurface. The top of the worksurface adjusts between 26” — 52” from the floor by means of electric controls that can be located at either end of the table. Cord length 9 feet. The column assembly consists of an outer member, an intermediate member and an inner member. The outer member is 2-3/8” X 4-3/8” rectangular 14-gauge steel tubing with a 1/4” steel plate welded on the top end. The intermediate member is 2” X 4” rectangular 14-gauge steel tubing. The inner member is 1-1/2” X 3-1/2” rectangular 14-gauge steel tubing with a 1/4” steel plate welded on the bottom end. A 6-gauge formed steel motor housing is welded to each outer leg member for strength. The foot consists of an extruded aluminum component with a nylon toe cap inserted into each end. The foot is attached to the column with (4) 6mm bolts. Two 1-1/2” diameter nylon base leveling glides are threaded into the foot.

Worksurface Support: The worksurface support shall be 1” x 1” 14-gauge steel tubing attached to each leg column with 6mm bolts. An 11-gauge u-shaped cross member connects each leg assembly for stability.

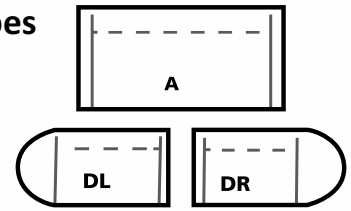
L Base Casters: (all models, black only) Caster kits consist of 2-locking and 2-non-locking casters and 16 torx head self tapping screws. Caster kit will add 1” of height to the adjustment range of the table (26” — 52”).

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: Powder coating is electrostatically applied.
Finish is chemical-resistant, hard, tough and mar-resistant. Three color options are: Black, Silver, and White.

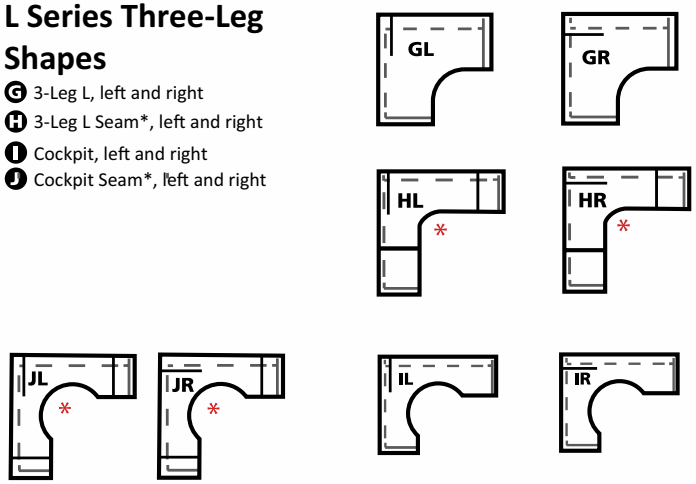
L Series Two-Leg Shapes

- A Rectangle
- D Peninsula, left and right radius



L Series Three-Leg Shapes

- G 3-Leg L, left and right
- H 3-Leg L Seam*, left and right
- I Cockpit, left and right
- J Cockpit Seam*, left and right



* L worksurfaces longer than 60” on both sides will have a seam on the longest side. If both are the same size, the seam will default to the left side.

	120° CORNER TABLE	CRANK TABLE	COUNTER BALANCE TABLE	ELECTRIC TABLE

W SERIES ADJUSTABLE TABLE SPECIFICATIONS

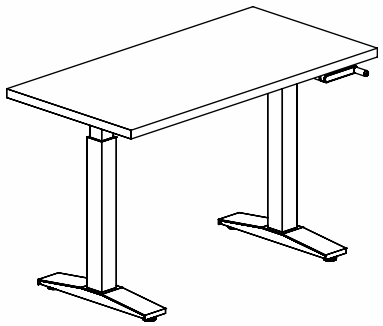
The table shall consist of two adjustable height T bases (centered column on a horizontal foot) attached to a worksurface support that spans the two bases and supports a worksurface. The top of the worksurface shall adjust between 22" and 48" from the floor by means of electric controls, hand crank, or counter balance that can be located at either end of the table. The foot shall consist of two formed and welded 11-gauge steel components. The top plate and foot shall be attached to the column with 8mm bolts. Two 1-1/2" diameter nylon base leveling glides shall be threaded into the foot.

Worksurface Support: The worksurface support shall be formed 11-gauge steel support members with 1/4" steel attachment plates. The worksurface support shall be attached to the column with 8mm bolts.

Edge Color Options: See Molded Edge Colors at Beginning of Price List

Base Finish Options: See Base Colors at Beginning of Price List

Powder-Coated Finish: Powder coating is electrostatically applied.
Finish is chemical-resistant, hard, tough and mar-resistant.



CRANK ADJUSTABLE HEIGHT TABLE (SIT/STAND)

- 2-3/4" Square Steel Column
- 27" — 44" Adjustable Height
- Adjusts At a Rate Of 6-1/3 Turns Per Inch
- Designed To Support 15 To 45 Lbs Of Equipment
- Adjustable Glides

BULLNOSE PVC FLAT

HOW TO ORDER

Indicate the following information on the order form:
1. Quantity of each item.
2. Model Number, including options.
   (See "How to Build a Model Number.")
3. Any special service required.

Note:
The □ indicates that a choice is required.

The absence of □ indicates that no choice is required.

HOW TO BUILD A MODEL NUMBER

❶ Select Basic Model

❷ Select Edge Style Options
54B - Bullnose
74P - PVC Flat

❸ Select Modesty Panel
NMP - No fabric modesty panel
PMP - Polyester felt modesty panel; **add $91**

❹ Select Base Options
G - Glides
R - Rolling Base; **add $22**
(1 foot w/rollers, 1 foot w/glides)

❺ Select Edge Color Options
See Molded Edge Colors at Beginning of Price List

❻ Select Electric Control
S - Standard switch
D - Deluxe switch; **add $44**

❼ Select Surface Finish Options
See Laminate Swatches at Beginning of Price List.
SP - Standard Laminate
CP - Customer Specified Laminate

❽ Select Base Finish Options
See Base Colors at Beginning of Price List

❾ Select Inner Column Finish Options
IBL - Black
ISV - Silver
IWH - White

❿ Select Modesty Panel Color Options (only if polyester felt panel is chosen)
See Modesty Panel Colors at Beginning of Price List

	Rectangular Pin Height Adjustable	Tripod Corner Pin Height Adjustable	Reduction Tripod Corner Pin Height Adjustable - Left/Right	Basic Square Shoe Pin Height Adjustable

T-4 tables are available in adjustable height. All adjustable tables meet or exceed ANSI/BIFMA 1998 requirements for desk products. The adjustable tables meet the ANSI/HFS 100-1988 standard for adjustability and knee clearance. The tables meet the ADA specifications for wheelchair access and height of surfaces. The metal components of T-4® tables are powder coated for appearance and durability. All plastic components are color matched in accordance with the KI color program.

Pin-Adjustable Tables

Each leg assembly is comprised of 1-3/8" x 2-3/4" x 16-gauge steel tube that telescopes inside a 2" x 3" x 14-gauge steel outer leg tube. Nylon bushings ensure a smooth, telescoping action between the tubes. A 14-gauge, draw-formed foot is welded to the outer leg tube, and provides strength and room for carpet levelers in a low profile, sculpted component. An 11-gauge steel, draw-formed worksurface support is welded to the inner tube, and provides strength to support large, cantilevered loads. Extruded aluminum covers are attached to the front and back of the upright tubing for visual appeal. A spring steel button, protruding through holes in both tubes, allows for adjustment in one-inch increments from 24" to 31".

WORKSURFACE SPECIFICATIONS

74P and KN Worksurfaces

74P and Knife-edge (KN) worksurfaces are constructed of 1-1/8" thick, 45-pound density particleboard. A .030" minimum thickness laminate provides a durable writing surface. The backer is a .030" minimum thickness melamine sheet. This provides a balanced construction that gives greater strength and prevents warping. All mounting holes are pre-drilled for easier table assembly and maximum holding power. A steel channel is provided for extra structure on tables with unsupported spans over 51". The 74P and KN surfaces are available in curvilinear or traditional shapes.

Powder-Coated Finish

Epoxy powder coating is electrostatically applied. The dry coating is then fused and cured in a baking oven to form a smooth, continuous film. Finish is chemical-resistant, hard, tough and mar-resistant.

Wire Management Trough

Troughs are formed from 16-gauge CRS and powder coated to match the table base. Trough is 5" tall; width on the bottom of the trough is 3.9" and opens up to 6.4" at the top.

Modesty Panel

Modesty panels are constructed of textured CRS, 18-gauge to 16-gauge in thickness. The 8" modesty panels are suspended from the worksurface via 11-gauge steel brackets. There is a 1" gap between the panels and the worksurface in order to pass wires, and the panels are inset from the back edge by 1". Modesty panels can be used on all types of T-4® Desking, regardless of adjustability. However, the modesty panel will conflict with a wire trough on adjustable tables and the two accessories should not be specified together. All corner tables and square shoes use two modesty panels along the back edges. Peninsula tables use one panel along the 48" back edge only so as not to interfere with conferencing capabilities.

Privacy Screens

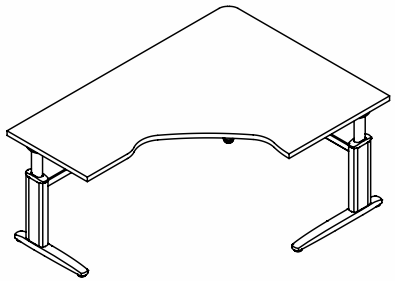
Privacy screens shall be available to provide sit down privacy or stand-up privacy within T-4® workstations. Screens shall be 3/4" thick, 18" to 38" high and available to fit all worksurfaces. Screens shall attach to the back of the legs providing a stationary height for the screen even when attached to an adjustable height desk. Screens are mounted 1" to 1-1/2" from the worksurface 5 T-4® Specifications edge. Privacy screens shall be designed for straight-line applications. They shall include mounting brackets for attachment. Screens shall be available for straight applications in 24", 30", 36", 42", 48", 54", 60", 66" and 72" widths. The 66" and 72" widths shall consist of a pair of screens (1) 30" screen plus (1) 36" screen for the 66" application and (2) 36" screens with splice for 72" applications. Screens may be used to serve two worksurfaces placed back-to-back. Privacy screens shall be usable on worksurfaces with overhead storage units to close the opening between the worksurface and the bottom shelf. Privacy screens will consist of two different aluminum extrusion profiles, each with die-cast corner connectors to create a rectangular frame. The frames will be either upholstered or painted, depending on the options. Between the two assembled frames, different core materials can be inserted. The screen material shall be made of 1/2" or 3/4" thick tackable core light or a 10 mm thick non-tackable translucent plastic. The extruded aluminum frame shall be .060" thick. The attachment bracket shall be made of 7 gauge steel. End-of-run privacy screens shall be available in 24" and 30" widths to match the depth of the fixed height worksurface that it will be used on. End-of-run privacy screens attach to the underside of the worksurface. End-of-run privacy screens shall have the same height and finishes as the regular privacy screens.

10-Wire Electrical Distribution System

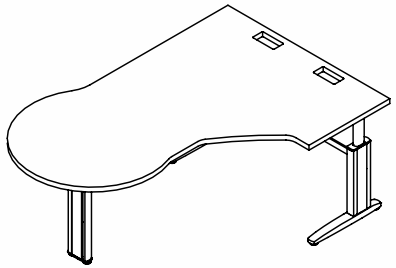
The 10-wire system is available in two configurations (6-2-2 and 4-4-2). The UL label is green for 6-2-2 and blue for 4-4-2 applications. These numbers refer to the quantity of hot, neutral and ground wires configured in each system. Both 6-2-2 and 4-4-2 systems may be brought into the system from the ceiling, the wall or the floor, through the use of top feeds and base feeds. T-4® 10-wire electrical will be able to integrate with KI's WireWorks® panel system with the Addition of the appropriate connectors. The 10-wire electrical distribution system will consist of a 10-wire harness, table-to-table connectors and a 10-wire infeed kit. The 2.16" wide double-sided rigid 10-wire harness shall mount inside the wire management trough and shall be available in widths to span the worksurface. The 30" to 66" wide worksurface harness kit shall accommodate (2) 15 amp duplex receptacles and the 72" wide worksurface harness kit shall accommodate up to (4) 15 amp duplex receptacles. Receptacles shall be available to access the up to 6 circuits within the harness and must be ordered separately. Both 10-wire circuits are rated at 120 VAC @ 20 amps. All receptacles are rated at 15 amps. The specifics of each wiring configuration are detailed below. Note: The two 10-wire systems (4-4-2 and 6-2-2) cannot be mixed together. The wiring systems must be separate. There are different receptacles for each system, and different connectors specific to each system. Keyed connectors will not allow the 2 systems to be mixed.

6-2-2 Configuration

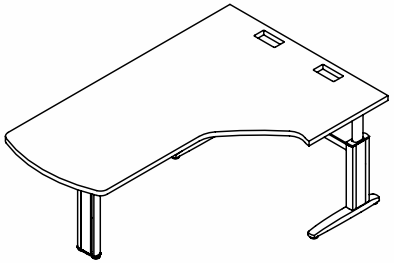
The 6-2-2 configuration of the 10-wire system will have three "convenience" circuits (1, 2 and 3) which will each have their own hot wire, will share an oversized neutral wire and will share the building ground wire. Circuits 4, 5 and 6 are "isolated ground" circuits that will each have their own hot wire, will share an oversized neutral wire, and will share an isolated ground wire. The advantage of this system is that it will be able to have 6 circuits coming in via one top feed or base feed. This will cut down on the number of feed points on an installation. The number 4, 5 and 6 receptacles will be colored orange to designate that they are on the isolated ground while the number 1, 2 and 3 receptacles come in standard trim colors.



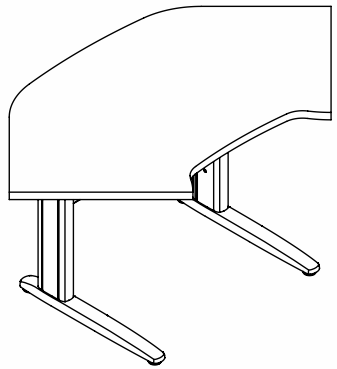
Reduction Basic Square Shoe Pin Height Adjustable - Left/Right



"P" Shaped Peninsula Pin Height Adjustable - Left/Right



Arcade Pin Height Adjustable - Left/Right



Two-Leg Corner Pin Height Adjustable

4-4-2 Configuration

The 4-4-2 configuration of the 10-wire system will have two "convenience" circuits (land 2), which will each have their own hot wire, their own neutral wire and will share the building ground wire. Circuits 3 and 4 receptacles are the "isolated ground" which will each have their own hot wire, their own neutral wire, and will share an isolated ground wire. The advantage of this system is that all of the circuits will have their own neutral wires and it has two circuits (3 and 4) that use an isolated ground. The number 3 and 4 receptacles will be colored orange to designate that they are on the isolated ground, while the number 1 and 2 receptacles come in standard trim colors.

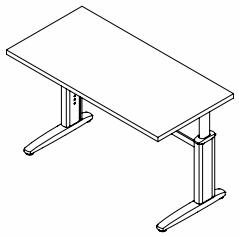
10-Wire Power Infeed Kit

The 10-wire power infeed kit shall provide power from fixed floor or wall sources to the 10-wire harness. It shall include 6' of plastic covered flexible conduit. To connect the hardwire end of a 10-wire top feed or base feed to your building, use a 3/4” Romex connector on the conduit.

10-Wire Power Table-to-Table Connector

10-wire table-to-table connector shall consist of a sleeved flexible harness, which provides power connections from adjoining desks. The jumper shall have a length of 27”.

Rectangular Pin Height Adjustable



- Rectangular surface with straight front
- Height adjusts from 24" — 31" in 1" increments
- Adjustable glides
- Modesty panels and wire troughs should not be specified together
