

# Care & Maintenance

## Vini® Storage

### **Maintenance Cleaning**

Vini Storage elements are finished with a durable baked-on polyester paint. Clean with a damp cloth and mild cleaner. Do not use harsh solvents or abrasive powders as they may damage the finish.

### **Touch-Up Paint**

Paint in all standard colors is available to repair minor chips and scratches.

### **Lubrication**

All moving surfaces are lubricated during assembly. These surfaces naturally attract dirt. To ensure smooth operation, the receding door runners and ball bearing race in suspension arms should be cleaned and a small amount of white lithium grease reapplied.
